FIABCI
World Prix d'Excellence Awards

ABOUT THE AWARDS

The FIABCI World Prix d'Excellence Awards recognise the projects that best embody excellence in all the real estate disciplines involved in their creation. It concretely illustrates the FIABCI ideal of providing society with optimal solutions to its property needs and helping make the world a better place to live, work and enjoy.

Judged in two levels by an international panel comprising top real estate professionals and an Oversight Panel representing five continents from around the world, the FIABCI World Prix d'Excellence rewards overall merit and not just aesthetics, functionality, or size.

Therefore, it represents an outstanding achievement and bestows upon the winner the right to use the coveted and exclusive award logo.

Winners also gain access to international platforms through the extensive FIABCI network.

The World Prix d'Excellence Awards is much more than just a real estate competition. It represents projects that are a cut above the rest.

Taking into consideration the number of entries as well as the number of Judges and their preferred categories, the Awards Secretariat will manage the process with the goal to have a more or less equal number of Judges in each category and get as many scores for each category as possible.

All judges should abstain from evaluating categories with projects from their home countries.

Oversight Panel are Judges with at least two years of experience appointed by the World President in office and recommended by the President of the World Prix d'Excellence Awards Committee.
