FIABCI is the world’s most representative non-political business networking organization for all professionals associated with the real estate industry.

Representing over 40 professions, from architects to investors, our mission is to provide our members with access and opportunities to exchange knowledge, share best practices, and conduct business with each other.

FIABCI is known worldwide - both within the industry and among other world organizations that share our same interests, including the United Nations, with whom we hold special consultative status at the Economic and Social Council (ECOSOC).

We support the implementation of the United Nations’ New Urban Agenda, in particular the Sustainable Development Goal #11:

To Make Cities and Human Settlements Inclusive, Safe, Resilient and Sustainable.

*Sharing and Inspiring Best Practices Worldwide*
The current pandemic prompts us to rethink the way we live and work and what the next post-crisis reality will be like. From social distancing to remote working, how we adapt to this changeable landscape will be crucial for our ability to navigate beyond it and emerge stronger in the long run.

Within this framework, the upcoming FIABCI Leadership Summit – Online Edition aims to provide real estate professionals with the tools and mindset they need to deal with the ongoing uncertainty while moving forward and staying competitive.

From significant insight into the main market trends and investment opportunities to leadership sessions and inspirational keynotes from thought leaders, the summit is sure to bring about change in the way we envision the future.

Unlike previous years, the FIABCI Leadership Summit will take on a new, innovative format in face of the consequences related to the COVID-19 outbreak. Nevertheless, participants can expect a dynamic agenda with interactive and engaging sessions with a similar feel to an in-person event.

IMPORTANT - Time zone for agenda: Central European Time.
LEADERSHIP SUMMIT
REimagining the future
