World Habitat Day – Honolulu Local Observance

Building Resilient Communities
Real Estate and the UN Sustainable Development Goals

*Adequate housing for the spectrum of need in Honolulu and around the US remains a prominent concern.*

*We must address this and other issues surrounding urban resilience with a new sense of urgency.*

**Sunday October 1**  
Welcome Reception  
5 - 7 PM

**Monday Symposium with Networking Lunch & Community Builder Award**

9 AM  
Key Note & Welcome

Budiarsa Sastrawinata, FIABCI World President  
Jason Pu, U.S. Department of Housing & Urban Development Regional Administrator  
UN Official from New York Office

9:30 – 10:15  
Policy Panel  

Hear from local officials on how a cross-government approach is leading to progress on providing more housing for more people – especially workforce housing, rental housing, and transitional housing while continuing to support market rate housing.

10:20 - 11:05  
Finance Panel  

What programs are available for first-time buyers, renters and developers from financial institutions? What are some alternative finance methods?

11:10 - 11:25  
Community Building Activity – Delegates prepare for Declared Action Report

11:30 - 12:15  
Community Resource Panel  

Learn how community-based organizations are already meeting the need and how to help, grow and expand their efforts.

12:15 – 1:25  
Lunch, Community Developer Award, Speaker

1:30 PM - 2:15 PM  
Innovation Panel  

Take a look into the future and see how rethinking the way we design, manage and power our cities can lead to healthier, happier and more engaged communities.

2:30 - 3:15 PM  
Delegates dialogue and arrive at Declared Action Reports

3:15 – 4 PM  
Groups Report Out
Tuesday October 3  
8:30 AM - 3:00 PM

Professional Continuing Education Program & Property Tours

8:30 – Noon  
CE Program

Building Resilient Communities – Real Estate and the UN Sustainable Development Goals

Gain a deeper understanding of how our property market system is already intersecting with all SDGs and can be the axis around which sustained progress can be made in multiple areas.

Learning Objectives

- Vision the future and how focused real estate policy, management and technical innovations can contribute to energy efficiency, housing for marginalized groups and an integrated community.

- Understand how to develop a shared sense of purpose within a group and participate in a multi-stakeholder dialogue.

1 pm – 3 pm
